

MRP-S30 rabbit pAb antibody

Catalog No :	Source:	Concentration :	Mol.Wt. (Da):
A17840	Rabbit	1 mg/ml	50365
Applications	WB,ELISA		
Reactivity	Human		
Dilution	WB: 1:500 - 1:2000. ELISA: 1:10000. Not yet tested in other applications.		
Storage	-20°C/1 year		
Specificity	MRP-S30 Polyclonal Antibody detects endogenous levels of MRP-S30 protein.		
Source / Purification	The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.		
Immunogen	The antiserum was produced against synthesized peptide derived from human MRPS30. AA range:390-439		
Uniprot No	Q9NP92		
Alternative names	MRPS30; PDCD9; BM-047; 28S ribosomal protein S30; mitochondrial; MRP-S30; S30mt; Programmed cell death protein 9		
Form	Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.		
Clonality	Polyclonal		
Isotype	IgG		
Conjugation			
Background	<p>mitochondrial ribosomal protein S30(MRPS30) Homo sapiens</p> <p>Mammalian mitochondrial ribosomal proteins are encoded by nuclear genes and help in protein synthesis within the mitochondrion. Mitochondrial ribosomes (mitoribosomes) consist of a small 28S subunit and a large 39S subunit. They have an estimated 75% protein to rRNA composition compared to prokaryotic ribosomes, where this ratio is reversed. Another difference between mammalian mitoribosomes and prokaryotic ribosomes is that the latter contain a 5S rRNA. Among different species, the proteins comprising the mitoribosome differ greatly in sequence, and sometimes in biochemical properties, which prevents easy recognition by sequence homology. This gene encodes a 28S subunit protein that is similar to the chicken pro-apoptotic protein p52. Transcript variants using alternative promoters or polyA sites have been mentioned in the literature but the complete description of these sequences i</p>		
Other	MRPS30, 28S ribosomal protein S30 mitochondrial
