Background	mitochondrial fission regulator 1(MTFR1) Homo sapiens This gene encodes a mitochondrial protein that is characterized by a poly-proline rich region. A chicken homolog of this protein promotes mitochondrial fission and the mouse homolog protects cells from oxidative stress. A related pseudogene of this gene is found on chromosome X. [provided by RefSeq, Mar 2009],
Other	MTFR1 CHPPR KIAA0009, Mitochondrial fission regulator 1 (Chondrocyte protein with a poly-proline region)
