

Myosin IXb rabbit pAb antibody

Catalog No :	Source:	Concentration :	Mol.Wt. (Da):
A18012	Rabbit	1 mg/ml	243558
Applications	WB,ELISA		
Reactivity	Human,Mouse,Rat		
Dilution	WB: 1:500 - 1:2000. ELISA: 1:10000. Not yet tested in other applications.		
Storage	-20°C/1 year		
Specificity	Myosin IXb Polyclonal Antibody detects endogenous levels of Myosin IXb protein.		
Source / Purification	The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.		
Immunogen	The antiserum was produced against synthesized peptide derived from human MYO9B. AA range:304-353		
Uniprot No	Q13459		
Alternative names	MYO9B; MYR5; Unconventional myosin-IXb; Unconventional myosin-9b		
Form	Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.		
Clonality	Polyclonal		
Isotype	IgG		
Conjugation			
Background	<p>myosin IXB(MYO9B) Homo sapiens This gene encodes a member of the myosin family of actin-based molecular motor heavy chain proteins. The protein represents an unconventional myosin; it should not be confused with the conventional non-muscle myosin-9 (MYH9). The protein has four IQ motifs located in the neck domain that bind calmodulin, which serves as a light chain. The protein complex has a single-headed structure and exhibits processive movement on actin filaments toward the minus-end. The protein also has rho-GTPase activity. Polymorphisms in this gene are associated with celiac disease and ulcerative colitis susceptibility. Multiple transcript variants encoding different isoforms have been found for this gene. [provided by RefSeq, Dec 2011],</p>		
Other	MYO9B, Unconventional myosin-IXb
