

Stat5a rabbit pAb antibody

Catalog No :	Source:	Concentration :	Mol.Wt. (Da):
A22015	Rabbit	1 mg/ml	
Applications	WB,IHC		
Reactivity	Human		
Dilution	WB: 1:500 - 1:2000.IHC:1:50-300. Not yet tested in other applications.		
Storage	-20°C/1 year		
Specificity	The antibody detects endogenous Stat5a protein.		
Source / Purification	The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.		
Immunogen	Synthesized peptide derived from human Stat5a around the non-phosphorylation site of S780.		
Uniprot No	P42229		
Alternative names	STAT5A; STAT5; Signal transducer and activator of transcription 5A		
Form	PBS, pH 7.4, containing 0.5%BSA, 0.02% sodium azide as Preservative and 50% Glycerol.		
Clonality	Polyclonal		
Isotype	IgG		
Conjugation			
Background	<p>signal transducer and activator of transcription 5A(STAT5A) Homo sapiens</p> <p>The protein encoded by this gene is a member of the STAT family of transcription factors. In response to cytokines and growth factors, STAT family members are phosphorylated by the receptor associated kinases, and then form homo- or heterodimers that translocate to the cell nucleus where they act as transcription activators. This protein is activated by, and mediates the responses of many cell ligands, such as IL2, IL3, IL7 GM-CSF, erythropoietin, thrombopoietin, and different growth hormones. Activation of this protein in myeloma and lymphoma associated with a TEL/JAK2 gene fusion is independent of cell stimulus and has been shown to be essential for tumorigenesis. The mouse counterpart of this gene is found to induce the expression of BCL2L1/BCL-X(L), which suggests the antiapoptotic function of this gene in cells. Alternatively spliced transcript variants have been</p>		
Other	STAT5A, Signal transducer and activator of transcription 5A
