

## UBPH rabbit pAb antibody

| Catalog No : | Source: | Concentration : | Mol.Wt. (Da): |
|--------------|---------|-----------------|---------------|
| A23153       | Rabbit  | 1 mg/ml         | 56896         |

|                              |                                                                                                                                          |
|------------------------------|------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Applications</b>          | WB,ELISA                                                                                                                                 |
| <b>Reactivity</b>            | Human,Mouse,Rat                                                                                                                          |
| <b>Dilution</b>              | WB: 1:500 - 1:2000. ELISA: 1:10000. Not yet tested in other applications.                                                                |
| <b>Storage</b>               | -20°C/1 year                                                                                                                             |
| <b>Specificity</b>           | UBPH Polyclonal Antibody detects endogenous levels of UBPH protein.                                                                      |
| <b>Source / Purification</b> | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.                    |
| <b>Immunogen</b>             | The antiserum was produced against synthesized peptide derived from human UBFD1. AA range:135-184                                        |
| <b>Uniprot No</b>            | O14562                                                                                                                                   |
| <b>Alternative names</b>     | UBFD1; UBPH; Ubiquitin domain-containing protein UBFD1; Ubiquitin-binding protein homolog                                                |
| <b>Form</b>                  | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.                                                                  |
| <b>Clonality</b>             | Polyclonal                                                                                                                               |
| <b>Isotype</b>               | IgG                                                                                                                                      |
| <b>Conjugation</b>           |                                                                                                                                          |
| <b>Background</b>            | UBFD1 (Ubiquitin Family Domain Containing 1) is a Protein Coding gene. GO annotations related to this gene include poly (A) RNA binding. |
| <b>Other</b>                 | UBFD1, Ubiquitin domain-containing protein UBFD1; Ubiquitin domain-containing protein UBFD1; Ubiquitin-binding protein homolog           |
