

Bc10 rabbit pAb antibody

Catalog No :	Source:	Concentration :	Mol.Wt. (Da):
A11151	Rabbit	1 mg/ml	9876

Applications	IF,ELISA
Reactivity	Human,Mouse,Rat
Dilution	WB 1:500-2000 IF: 1:200 - 1:1000. ELISA: 1:40000. Not yet tested in other applications.
Storage	-20°C/1 year
Specificity	Bc10 Polyclonal Antibody detects endogenous levels of Bc10 protein.
Source / Purification	The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.
Immunogen	The antiserum was produced against synthesized peptide derived from human BLCAP. AA range:38-87
Uniprot No	P62952
Alternative names	BLCAP; BC10; Bladder cancer-associated protein; Bladder cancer 10 kDa protein; Bc10
Form	Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.
Clonality	Polyclonal
Isotype	IgG
Conjugation	
Background	bladder cancer associated protein(BLCAP) Homo sapiens This gene encodes a protein that reduces cell growth by stimulating apoptosis. Alternative splicing and the use of alternative promoters result in multiple transcript variants encoding the same protein. This gene is imprinted in brain where different transcript variants are expressed from each parental allele. Transcript variants initiating from the upstream promoter are expressed preferentially from the maternal allele, while transcript variants initiating downstream of the interspersed NNAT gene (GeneID:4826) are expressed from the paternal allele. Transcripts at this locus may also undergo A to I editing, resulting in amino acid changes at three positions in the N-terminus of the protein. [provided by RefSeq, Nov 2015],
Other	BLCAP, Bladder cancer-associated protein
