

CD68 mouse mAb(12E2) antibody

Catalog No :	Source:	Concentration :	Mol.Wt. (Da):
A12077	Mouse	1 mg/ml	37408

Applications	IHC
Reactivity	Human,Mouse,Rat
Dilution	IHC: 1:200
Storage	-20°C/1 year
Specificity	The antibody detects endogenous CD68 protein.
Source / Purification	The antibody was affinity-purified from mouse ascites by affinity-chromatography using specific immunogen.
Immunogen	Synthetic Peptide of CD68
Uniprot No	P34810
Alternative names	CD68; Macrosialin; Gp110; CD68
Form	PBS, pH 7.4, containing 0.5%BSA, 0.02% sodium azide as Preservative and 50% Glycerol.
Clonality	Monoclonal
Isotype	IgG
Conjugation	
Background	<p>CD68 molecule(CD68) Homo sapiens This gene encodes a 110-kD transmembrane glycoprotein that is highly expressed by human monocytes and tissue macrophages. It is a member of the lysosomal/endosomal-associated membrane glycoprotein (LAMP) family. The protein primarily localizes to lysosomes and endosomes with a smaller fraction circulating to the cell surface. It is a type I integral membrane protein with a heavily glycosylated extracellular domain and binds to tissue- and organ-specific lectins or selectins. The protein is also a member of the scavenger receptor family. Scavenger receptors typically function to clear cellular debris, promote phagocytosis, and mediate the recruitment and activation of macrophages. Alternative splicing results in multiple transcripts encoding different isoforms. [provided by RefSeq, Jul 2008],</p>
Other	CD68, Macrosialin
