

CEP350 rabbit pAb antibody

Catalog No :	Source:	Concentration :	Mol.Wt. (Da):
A12289	Rabbit	1 mg/ml	350930

Applications	IHC,ELISA
Reactivity	Human
Dilution	IHC: 1:100 - 1:300. ELISA: 1:40000. Not yet tested in other applications.
Storage	-20°C/1 year
Specificity	CEP350 Polyclonal Antibody detects endogenous levels of CEP350 protein.
Source / Purification	The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.
Immunogen	The antiserum was produced against synthesized peptide derived from human CEP35. AA range:671-720
Uniprot No	Q5VT06
Alternative names	CEP350; CAP350; KIAA0480; GM133; Centrosome-associated protein 350; Cep350; Centrosome-associated protein of 350 kDa
Form	Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.
Clonality	Polyclonal
Isotype	IgG
Conjugation	
Background	centrosomal protein 350(CEP350) Homo sapiens The product of this gene is a large protein with a CAP-Gly domain typically found in cytoskeleton-associated proteins. The encoded protein primarily localizes to the centrosome, a non-membraneous organelle that functions as the major microtubule-organizing center in animal cells. The encoded protein directly interacts with another large centrosomal protein and is required to anchor microtubules at the centrosome. It is also implicated in the regulation of a class of nuclear hormone receptors in the nucleus. Several alternatively spliced transcript variants have been found, but their full-length nature has not been determined. [provided by RefSeq, Jul 2008],
Other	CEP350, Centrosome-associated protein 350
