Background	EPS8 like 1(EPS8L1) Homo sapiens This gene encodes a protein that is related to epidermal growth factor receptor pathway substrate 8 (EPS8), a substrate for the epidermal growth factor receptor. The function of this protein is unknown. At least two alternatively spliced transcript variants encoding different isoforms have been found for this gene. [provided by RefSeq, Jul 2008],		
Other	EPS8L1, Epidermal growth factor receptor kinase substrate 8-like protein 1
