

HGFA rabbit pAb antibody

Catalog No :	Source:	Concentration :	Mol.Wt. (Da):
A15589	Rabbit	1 mg/ml	70682

Applications	WB,ELISA
Reactivity	Human,Mouse,Rat
Dilution	WB: 1:500 - 1:2000. ELISA: 1:40000. Not yet tested in other applications.
Storage	-20°C/1 year
Specificity	HGFA Polyclonal Antibody detects endogenous levels of HGFA protein.
Source / Purification	The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.
Immunogen	Synthesized peptide derived from the C-terminal region of human HGFA.
Uniprot No	Q04756
Alternative names	HGFAC; Hepatocyte growth factor activator; HGF activator; HGFA
Form	Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.
Clonality	Polyclonal
Isotype	IgG
Conjugation	
Background	HGF activator(HGFAC) Homo sapiens This gene encodes a member of the peptidase S1 protein family. The encoded protein is first synthesized as an inactive single-chain precursor before being activated to a heterodimeric form by endoproteolytic processing. It acts as serine protease that converts hepatocyte growth factor to the active form. Alternative splicing results in multiple transcript variants. [provided by RefSeq, Jul 2014],
Other	HGFAC, Hepatocyte growth factor activator
