

IGF-I rabbit pAb antibody

Catalog No :	Source:	Concentration :	Mol.Wt. (Da):
A16111	Rabbit	1 mg/ml	17026/21841

Applications	IHC,ELISA
Reactivity	Human,Mouse,Rat
Dilution	IHC: 1:100 - 1:300. ELISA: 1:10000. Not yet tested in other applications.
Storage	-20°C/1 year
Specificity	IGF-I Polyclonal Antibody detects endogenous levels of IGF-I protein.
Source / Purification	The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.
Immunogen	The antiserum was produced against synthesized peptide derived from human IGF-I. AA range:100-149
Uniprot No	P01343/P05019
Alternative names	IBP1; IGF-IA; IGF1A; IGF1; insulin-like growth factor 1; insulin-like growth factor IA; mechano growth factor; MGF; somatomedin C
Form	Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.
Clonality	Polyclonal
Isotype	IgG
Conjugation	
Background	insulin like growth factor 1(IGF1) Homo sapiens The protein encoded by this gene is similar to insulin in function and structure and is a member of a family of proteins involved in mediating growth and development. The encoded protein is processed from a precursor, bound by a specific receptor, and secreted. Defects in this gene are a cause of insulin-like growth factor I deficiency. Alternative splicing results in multiple transcript variants encoding different isoforms that may undergo similar processing to generate mature protein. [provided by RefSeq, Sep 2015],
Other	IGF1, Insulin-like growth factor I
